PRINCE DEREK TETTEY MARTEY

PROFILE

Graduate Bachelor of Science in Electrical/Electronic Engineering with strong academic background and complemented studies with certifications in project management and computer programming showcasing a commitment to professional growth. Skilled in leadership, team collaboration and proficient in the use and design of Technical Software. Passionate about contributing to the Electrical Power, Electronics, Industrial Control and Automation, Renewable Energy, Agriculture, Software development, AI and Machine Learning and Technology industries through innovative, safety-driven engineering solutions, while continuously advancing my technical and professional competencies in dynamic environments.

SKILLS & ABILITIES

- Proficient in the use of technical software for Design and Simulation [Autodesk Revit (MEP), PVsyst, Proteus, Tinker CAD and Kali Linux]
- Advanced Computer programming [MATLAB, Python, Arduino wiring, SQL and JavaScript]
- Web Development
- AI and Machine Learning Engineering
- Database Querying and Design
- Skilled in Microsoft Office Suite and Google Workspace
- Leadership and Teamwork
- Analytical Thinking and Skills
- Occupational Health & Safety Cognition
- Electrical Service Design and Wiring
- Project Management

EXPERIENCE

MACHINE LEARNING INTERN | FLYRANK (REMOTE)

[8TH JUN 2026 – 29TH SEP 2026]

- Interned at FlyRank AI as an AI intern, focusing on Machine Learning.

FACILITIES ASSISTANT (UTILITIES, ENERGY & ENVIRONMENT) | LEGACY GIRLS COLLEGE (NATIONAL SERVICE)

[5TH JAN 2026 – 11TH OCT 2026]

- Assisted in the Management of 33+ Staff Members which included hand skilled and non-skilled workers.
- Developed a Facility Management System Webapp for Facilities Health Tracking and Management.
- Maintained utility records, inspection logs and consumption reports.

- Tracked Electrical Systems, consumption and identified energy-saving opportunities.
- Coordinated water-shortage response and monitored water consumption, distribution and availability.
- Waste management including waste collection, segregation, disposal and contractor coordination.
- Coordinated farm, fish pond, bee hive, landscaping and related environmental activities.

STUDENT INTERN | GHANA STANDARDS AUTHORITY (GSA)

[1ST OCT 2024 – 1ST NOV 2024]

- Gained hands-on experience in electrical testing and diagnostics
- Improved my technical skills and familiarity with industry standards, codes and practices in Electrical Engineering

ELECTRICAL TECHNICIAN INTERN | GHANA ARMED FORCES (49 ENGINEERING REGIMENT, BURMA CAMP)

[16TH OCT 2023 – 24TH NOV 2023]

Exposure to practical and technical field activities in:

- Sub–Station Maintenance
- House wiring and Rewiring
- Repairs and assembling of household electrical equipment

EDUCATION

KWAME NKRUMAH UNIVERSITY OF SCIENCE AND TECHNOLOGY (KNUST), KUMASI, GHANA

BSc. ELECTRICAL/ELECTRONIC ENGINEERING | December 2021 - November 2025

POWER LEARN PROJECT (PLP), NAIROBI, KENYA

ML/AI ENGINEERING | July 2025 - December 2025

INSTITUTE OF MANAGEMENT, TECHNOLOGY AND FINANCE (MTF), LISBOA, PORTUGAL

PROJECT MANAGEMENT | June 2025

LEADERSHIP

- **Project Manager** | 2024 – 2025 ACADEMIC YEAR | WAIMM-KNUST, West African Institute of Mining, Metallurgy and Petroleum
- **Executive Diploma in Leadership** | JUNE 2025 | MTF Institute of Management, Technology and Finance
